### 5 year performance chart (%)

### Commentary

- There were no asset allocation target changes in December
- Equity markets were generally buoyant after a somewhat tepid November
- Inflation rose in the UK, the US, Europe and Japan, indicating continued economic strength
- The Federal Reserve increased its Fed Funds rate by a further 25 basis points as expected
- The target weight for Babcock International was increased, in order to take further advantage of the compelling dividend yield which is over 4% and close to 3x covered by earnings
- Strong results from Victrex; healthy cash generation enabled the company to announce a larger than expected special dividend
- In Japan, the Goodhart Michinori Japan Equity Fund and CC Japan Income & Growth Trust were reduced to bring back to target weight
- Following the announcement that Aberdeen Private Equity Fund is to be wound up at NAV we reduced the position following the 16% leap in the share price
- We participated in the equity raise for Ediston Properties Investment Company which has bought a portfolio of retail parks with asset management opportunities
